

Early Morning Care and After Care

Our Extended Care Program is another one of our wonderful school offerings for families. We know family schedules are complex. Therefore, we fully appreciate how important extended care is to parents. Early Morning care will be available from 7:30-8:15 and After Care will be available from 2:30-4:30pm. A separate application will need to be completed in order to participate.

St. Michael the Archangel Pre-Kindergarten

We are very excited to launch our new Pre-Kindergarten program. The program will be Monday through Friday and is designed for children who will turn four by October 15th. Pennsylvania Learning Standards for Pre-Kindergarten will be followed. Our full day program will be held from 8:30am-2:30pm with before and after care options provided. A \$150.00, non-refundable, registration fee will be required with each application.

Our Pre-Kindergarten class will be held at our Elementary School Campus located at 5040 St. Joseph Road in Coopersburg. A full-time teacher and aide will provide instruction under the supervision of Dr. Joanne LoFaso, Principal of St. Michael the Archangel School.

The Pre-Kindergarten will follow the same school schedule including holidays and snow days as St. Michael the Archangel School. The start date will be the Monday prior to Labor Day. An Orientation Day will be scheduled prior to the start of school; date to be determined.

Please contact Marianne Gano, Advancement Director at 610-867-8422 or mgano@st-mikes.com with any questions or further information.

Pre-Kindergarten

The Children

- Children learn and experience self-respect as well as respect for others and the environment.
- Learning curiosity is encouraged and supported by involving students in collaborative projects and hands-on exploration and discovery.

The Classroom

- Each day great discoveries are made through sharing, exploring, learning, and growing together.
- Teachers place a strong emphasis on cooperative learning as well as whole class and small group instruction.
- Teachers follow the PA learning standards for early childhood.

The Curriculum

- Approaches to learning and play
- Creative thinking and expression
- Health, wellness and physical development
- Language and literacy development
- Mathematical thinking and expression
- Families, learning environments and communities
- Scientific thinking and technology
- Social and emotional development
- Social studies thinking

Visiting makes the difference!
